383 Обозначение пустоты, какое оно? Темнота ли это? Там где отсутствие света, отсутствие фотонов
→ (носителей света)? Или это то, что полностью отражает свет? Пустой белый лист бумаги? Там

→ Пространство это то, что можно чем-то наполнить?

394

395 А что если мы вообразим движение? Нужно ли время? Каким самым коротким будет путь? Что будет

399 Можно ли замкнуть движение? Может ли это быть кругом? Можно ли замкнуть время? Или остаётся

→ замкнутая область? Полностью отделённая от всего остального? Но что это всё остальное? Что
→ можно делить? В каком направлении? Ничего или всё? Пустота или полнота? Начало или конец?
→ Или может быть это единица и ноль? Дуальность? Противоположность? А что будет с кругом если

403 Как ещё можно использовать грань, черту, линию? А что если она может что-то соединять, может

411 Шаг назад. Возьмём опять отделённую область, которая лишь та же замкнутая линия, что ещё она
