Обозначение пустоты, какое оно? Темнота ли это? Там где отсутствие света, отсутствие фотонов
 ↪ (носителей света)? Или это то, что полностью отражает свет? Пустой белый лист бумаги? Там
 ↪ где есть место для нового начала? Разве пустота это не характеристика пространства?
 ↪ Пространство это то, что можно чем-то наполнить?

387 Что может быть минимальным рисунком, образом, графикой? Может быть это точка? Это ли простейшая

390

391 А что если повторить? Сделать копию? Создать дубликат? Из одного сделать два? Может это быть
↳ так? Инверсия? Отражение? Сумма?

392

394

395 А что если мы вообразим движение? Нужно ли время? Каким самым коротким будет путь? Что будет
↳ если этот путь зафиксировать? Запомнить след? Как две точки становятся линией? Чертой?
↳ Грань? Разделителем? Единицей?

396

398

399 Можно ли замкнуть движение? Может ли это быть кругом? Можно ли замкнуть время? Или остаётся
↳ только спираль? Но что если замкнуть предел? Создать ограничение, разделение? Получится
↳ замкнутая область? Полностью отделённая от всего остального? Но что это всё остальное? Что
↳ можно делить? В каком направлении? Ничего или всё? Пустота или полнота? Начало или конец?
↳ Или может быть это единица и ноль? Дуальность? Противоположность? А что будет с кругом если
↳ у него нет размера? Будет ли круг точкой? Точка состоящая из точек?

402

403 Как ещё можно использовать грань, черту, линию? А что если она может что-то соединять, может
↳ тогда её нужно повернуть? Почему то, что перпендикулярно вертикальному горизонтально?
↳ Горизонт? Инвертирует ли это смысл? Что такое смысл? Из чего состоит смысл? Существует ли
↳ элементарная единица смысла?

406

407 Соединять, допустим, а какой смысл в этом есть ещё? Что если помимо смысла "соединить",
↳ связать"", есть ещё и смысл направления ""от начала к концу""? От предка к потомку? От
↳ родителя к ребёнку? От общего к частному?

410

411 Шаг назад. Возьмём опять отделённую область, которая лишь та же замкнутая линия, что ещё она
↳ может представлять собой? Объект? Но в чём его суть? Разве не в том, что у него есть
↳ граница, разделяющая внутреннее и внешнее? Допустим связь, стрелка, линия соединяет два
↳ объекта, как бы это выглядело?

412

413 [![белая связь, чёрная направленная

414

415 Допустим у нас есть смысл "связать" и смысл "направления", много ли это нам даёт? Много ли
↳ вариантов интерпретации? А что если уточнить, каким именно образом выполнена связь? Что если
↳ можно задать ей чёткий, конкретный смысл? Что это будет? Тип? Глагол? Связка? Действие?
↳ Трансформация? Переход из состояния в состояние? Или всё это и есть объект, суть которого в
↳ его конечном состоянии, если конечно конец определён направлением?

418
419  А что если всё это время, мы смотрели на суть как бы снаружи? Можно ли взглянуть на это изнутри?
    ↳  Что будет внутри объектов? Объекты ли это? Или это связи? Может ли эта структура описать
    ↳  сама себя? Но что тогда получится, разве это не рекурсия? Может это фрактал?
